	Over 3.5t vehicle	UNECE Reg. 49 Regulation (EC) 692/2008	
Tyres		UNECE Reg. 30, 54, 75, 106, 117, 108, 109	Quality management Safety and Control of Industrial Products Act (QMSCIPA) (Articles. 19, 20, 21); Enforcement Rules of QMSCIPA Article 2 paragraph 2, Article 19.

On-Board Diagnostic Systems for Gasoline-Powered Vehicles

Gasoline-powered vehicles complying with Euro 6 OBD shall be considered as complying with Korea LEV and ULEV OBD.

Transitional Arrangements on OBD and Emissions for Gasoline-Powered Motor Vehicles

1. OBD

Until the end of 2013 or the introduction of Euro 6 OBD, if the latter is earlier:

- (a) each EU car manufacturer² whose sales of vehicles with Euro OBD in Korea during the year 2008 exceeded 800 vehicles will be allowed to sell in Korea the following number of vehicles with Euro 5 OBD per year and brand:

the year 2010: 1,200, the year 2011: 1,500, the year 2012: 1,800 and the year 2013: 1,800;
- (b) each EU car manufacturer whose total sales of vehicles with Euro OBD in Korea during the years 2005 to 2008 exceeded an average of 750 vehicles per year will be allowed to sell in Korea 1,000 vehicles with Euro 5 OBD per year and brand; and
- (c) other EU car manufacturers not covered under subparagraphs (a) or (b) above will be allowed to sell vehicles with Euro 5 OBD in Korea within an overall limit of 1,500 such vehicles per year. This quantity will be distributed among those manufacturers in accordance with principles to be determined by the Working Group on Motor Vehicles and Parts.

2. Emissions

Until the application of a new arrangement³ for manufacturers that sell no more than 10,000 gasoline-powered vehicles per year in the territory of Korea, Korea shall provide that:

- (a) a gasoline-powered motor vehicle produced by a manufacturer that sells no more than 250 of these vehicles per year in the territory of Korea complies with the Korean emission requirements if the annual fleet average Non-Methane Organic Gases (hereinafter referred to as the “NMOG”) value of the manufacturer’s fleet sold in the territory of Korea does not exceed 0.047 g/km;
- (b) a gasoline-powered motor vehicle produced by a manufacturer that sells no more than 4,000 of these vehicles per year in the territory of Korea complies with the Korean emission requirements if the annual fleet average NMOG value of the manufacturer’s fleet sold in the territory of Korea does not exceed 0.039 g/km; and

² The Parties note that the Korean practice on the concept of manufacturer at the time of signature of this Agreement will provide guidance in the implementation of this paragraph.

³ The Parties understand that a new arrangement will be introduced upon the entry into force of *the Free Trade Agreement between the Republic of Korea and the United States of America*.

- (c) a gasoline-powered motor vehicle produced by a manufacturer that sells no more than 10,000 of these vehicles per year in the territory of Korea complies with the Korean emission requirements if the annual fleet average NMOG value of the manufacturer's fleet sold in the territory of Korea does not exceed 0.030 g/km.

3. Application of Transitional Arrangements⁴

The Parties shall provide for the application of these transitional arrangements on OBD and emissions from the calendar year in which this Agreement enters into force.

⁴ With a mutual understanding that this Agreement will enter into effect in 2010, Korea will make the necessary measures effective as from 1 January 2010 with regard to marketing motor vehicles with Euro 5 OBD.
