System Description

The purpose of this system is to allow the facilities to issue the certificates for the regulated products, whether they are imported or local manufacture. This is done by adding the product to products list and then choose the certificate type of the product to issue a conformity certificate, the system will display only the products that required the chosen certificate. If the certificate is GCC or COC, the system presents the conformity assessment bodies (CB'S) to choose from. The application goes to the conformity assessment authority. If the application is received, the system sends a notification to the facility to create the invoice and pay it. Then the CB will start studying the application and take the decision of conformity. If the certificate is one of the equivalent certificates, the system will issue the certificate directly and with no cost.

Applying for Certificate of Conformity:

The facility can apply for a certificate of conformity for regulated products by clicking on "certificate of conformity request" from the home page of the electronic services as shown in the following:

After that, the user selects the required certificate, and the system will display only the products that have a requirement for the selected certificate.

Apply a product conformity certificate (COC)

After entering the Conformity Certificate Request page, the products requiring a COC conformity certificate will be displayed to choose from these products as follows:

After that, the product data will be displayed to check it, and by clicking on the Next button, you will be taken to the Add Model Numbers page as follows:

Models' numbers can be uploaded by the excel file by clicking on (download empty excel template) and adding the required models' numbers in the excel file and then clicking on (browse file) to upload all the models in the excel file, or models can be added manually by clicking on (Add model numbers), Then click on the Next button to choose from available CB's to send the request as follows:

Note: In case of there is an additional requirement on the product such as (power efficiency certificate, water consuming) the system will automatically bring the models and licenses numbers without entering any data, note that if the product is required any additional requirement (power efficiency certificate, water consuming) the user will not be able to complete the request until the additional requirement is issued for the product.

This Product is required additional requirements (Power Efficiency Certificate , Water Consuming) to send the request

Add

When the system fetching data for the additional requirement (power efficiency certificate, water consuming) the user selects the trademark that was brought in, as well as the model numbers and the licenses.

The status of the request will changed to " Waiting receipt of the request from conformity assessment body side" and the user has the following options (request view, delete, follow-up task) by returning to the homepage and clicking on "Previous Requests" as shown below:

Conformity Request

Request Count :27

Request Number : 18-10-000011 HS Code : 392520000001 Submitted On : 23/10/2018 Options

Product Name : product 2
 Trademark : adidas
 Request Status : Pending payment by the Facility
 Technical Regulation Name : 1/6 Doors and windows, glass and Accessories
 CB Organization Office Name : مكتب رئيسي لجهة المطابقة الثانية

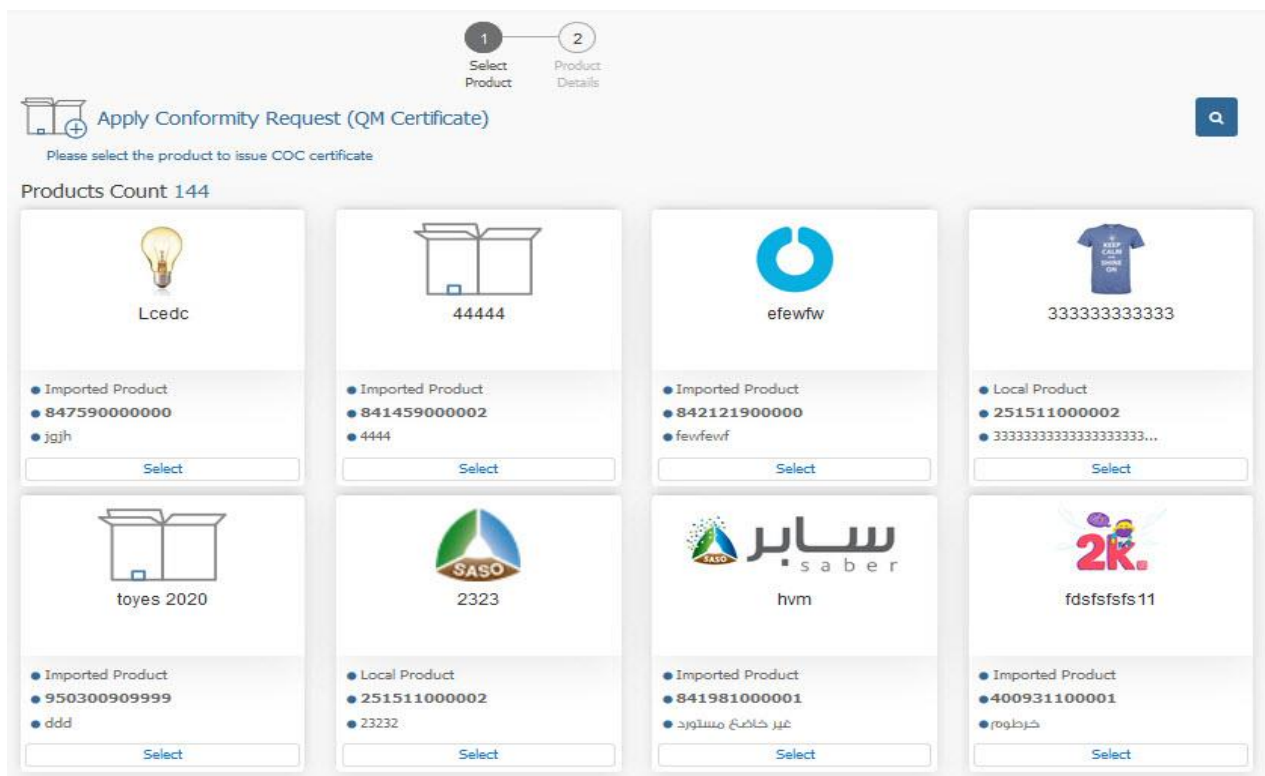

Request Number : 18-10-000009 HS Code : 961590000002 Submitted On : 23/10/2018 Options

Product Name : test
 Trademark : adidas
 Request Status : Waiting For Creating Bill
 Technical Regulation Name : 4/22 jewelry, accessories and plastic bracelets
 CB Organization Office Name : مكتب رئيسي لجهة المطابقة الثانية

Once the application has been accepted by the conformity assessment body, the user will be able to create and pay the invoice to start reviewing the document by the conformity assessment body and take the conformity decision.

Equivalent Certificate Request (Saudi Quality Mark Certificate, biodegradable Plastic Certificate, IECEE Certificate, Gulf Conformity Certificate, Energy Efficiency License)

When clicking on one of the equivalent certificate requests, the system sorts the products according to the requirement for each product as follows:

After selecting the product, the system displays the product data to check it, after that the user should enter the certificate information to validate. If the validation is done the equivalent certificate will be issued immediately and free of charge.

Send Request

Note: If the equivalent certificate is Gulf certificate of conformity the system automatically sends the request to the conformity assessment body that issued the Gulf certificate to approve the request and issue the certificate.

Create a group request:

This feature enables the user to submit a group request to several products and send them to the same certification body at once. To access this feature, the user will access the request page of the conformity request and click on "Group Request" as shown below:

The user will select the geographical region of the office and then select from the available offices. And then click on “add product” to add it to the request as follows:

Apply Conformity Request
