NOTIFICATION

Corrigendum

The following communication, dated 9 September 2024, is being circulated at the request of the delegation of the United States of America.

Greenhouse Gas Reporting Rule: Revisions and Confidentiality Determinations for Petroleum and Natural Gas Systems; Correction

The Environmental Protection Agency (EPA) is correcting a [final rule](#) (notified as [G/TBT/N/USA/2027/Add.1](#)) published in the Federal Register on 14 May 2024. The final rule amended requirements that apply to the petroleum and natural gas systems source category of the Greenhouse Gas Reporting Rule to ensure that reporting is based on empirical data, accurately reflects total methane emissions and waste emissions from applicable facilities and allows owners and operators of applicable facilities to submit empirical emissions data that appropriately demonstrate the extent to which a charge is owed under the Waste Emissions Charge. This document corrects inadvertent errors introduced in preparing the amendatory regulatory text for the final rule or in preparing the signed final rule for publication. These corrections do not result in any substantive changes to the final rule.

The Federal Register corrections, numbers 1.a through 1.ff and 2.a through 2.q, are effective 1 January 2025. The correcting amendments in instructions 2 and 3, correcting §§ 98.233 and 98.236, respectively, are effective 4 October 2024.
