## NOTIFICATION

### Addendum

The following communication, dated 7 January 2025, is being circulated at the request of the delegation of the United States of America.

**Title:** Energy Conservation Program: Energy Conservation Standards for Consumer Gas-fired Instantaneous Water Heaters

**Description:** The Energy Policy and Conservation Act, as amended ("[EPCA](#)"), prescribes energy conservation standards for various consumer products and certain commercial and industrial equipment, including gas-fired instantaneous [water heaters](#), which are a type of consumer water heater. EPCA also requires the U.S. Department of Energy ("DOE" or the "Department") to periodically review its existing standards to determine whether more-stringent standards would be technologically feasible and economically justified, and would result in significant energy savings. In this final rule, DOE is adopting amended energy conservation standards for gas-fired instantaneous water heaters. It has determined that the amended energy conservation standards for these products would result in significant conservation of energy, and are technologically feasible and economically justified.

<sup>1</sup> This information can be provided by including a website address, a pdf attachment, or other information on where the text of the final/modified measure and/or interpretive guidance can be obtained.

The effective date of this rule is 11 March 2025. Compliance with the amended standards established for gas-fired instantaneous water heaters in this final rule is required on and after 26 December 2029.
