2026 No. 750

ENERGY CONSERVATION

The Ecodesign for Energy-Related Products and Energy Information (Amendment) Regulations 2026

<i>Made</i>	- - - -	<i>3rd July 2026</i>
<i>Laid before Parliament</i>		<i>6th July 2026</i>
<i>Coming into force</i>	- -	<i>27th July 2026</i>

The Secretary of State makes these Regulations in exercise of the powers conferred by regulations 22 and 24(2) of the Ecodesign for Energy-Related Products Regulations 2010⁽¹⁾ (“the 2010 Regulations”), Articles 11(3) and 11A(3) and (4) of [Regulation \(EU\) 2017/1369](#) of the European Parliament and of the Council setting a framework for energy labelling⁽²⁾ (“the Framework Regulation”) and sections 1(1)(b) and 2(1) and (7) of the Product Regulation and Metrology Act 2025⁽³⁾ (“the 2025 Act”).

For the purposes of paragraph (1) of regulation 22 of the 2010 Regulations, the Secretary of State considers that the matters set out in paragraphs (2) and (6) of that regulation are satisfied. The Secretary of State has complied with paragraph (4) of regulation 22 of the 2010 Regulations.

For the purposes of paragraph (3) of Article 11 of the Framework Regulation, the Secretary of State considers that the conditions set out in paragraph (1)(a) to (d) of that Article are satisfied.

The Secretary of State had regard to the social, environmental and economic impact of making these Regulations, in accordance with section 2(8) of the 2025 Act, and, before making these Regulations, consulted such persons as the Secretary of State considered appropriate, in accordance with section 13(6) of the 2025 Act.

Citation, commencement and extent

1.—(1) These Regulations may be cited as the Ecodesign for Energy-Related Products and Energy Information (Amendment) Regulations 2026.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend the Ecodesign for Energy-Related Products Regulations 2010 ([S.I. 2010/2617](#)) to extend Conformité Européenne (“CE”) mark recognition to cover Energy-Related Products sold in Great Britain (“GB”) that are regulated under the European Union’s new Ecodesign for Sustainable Products Regulation framework, under [Regulation \(EU\) 2024/1781](#) of the European Parliament and of the Council of 13 June 2024 establishing a framework for the setting of eco-design requirements for sustainable products. This will allow CE marked products to continue being sold in GB if they conform with GB eco-design standards, without the need to also affix a UK Conformity Assessment (“UKCA”) marking.

These Regulations also amend the Ecodesign for Energy-Related Products and Energy Information (Household Tumble Dryers) Regulations 2026 ([S.I. 2026/318](#)) (“the 2026 Regulations”) to correct errors in those Regulations. These include corrections made to correct drafting errors identified by the Joint Committee on Statutory Instruments (“the JCSI”) in its second report for the Parliamentary Session 2026-27. Regulation 2 of the 2026 Regulations provides for commencement, and the JCSI identified that paragraphs (2) and (3) of that regulation had incorrectly referred to regulation 16(4) (a) to (c) of those Regulations. This error is corrected by removing those incorrect cross references. The JCSI also identified that no end date was specified for the transitional provision included in regulation 15 of the 2026 Regulations. This error is corrected by adding a specific end date for the transitional provision in that regulation.

A full impact assessment has not been produced for this instrument as no, or no significant, impact on the private, voluntary or public sector is foreseen.
